CAUSE AND EFFECT Good Digestion Follows Right Food.

Indigestion and the attendant dis comforts of mind and body are certain to follow continued use of improper food.

Those who are still young and robust are likely to overlook the fact that, as dropping water will wear a stone away at last, so will the use of heavy, greasy, rich food, finally cause loss of appetite and indigestion.

Fortunately many are thoughtful enough to study themselves and note the principle of cause and effect in their daily food. A N. Y. young worn an writes her experience thus:

"Sometime ago I had a lot of trou-ble from indigestion, caused by too rich food. I got so I was unable to digest scarcely anything, and medi-

cines seemed useless.
"A friend advised me to try Grape-Nuts food, praising it highly and as a last resort, I tried it. I am thankful to say that Grape-Nuts not only re-lieved me of my trouble, but built me up and strengthened my digestive or-gams so that I can now eat anything I desire. But I stick to Grape-Nuts."

RICH VARIETY OF CUSTARD

With Special Flavorings It Can Be Made Into Several Different Kinds of Dessert.

Let one quart of rich milk come to the boiling point. Have one egg and yolk of another well beaten and mixed with one-half cupful of sugar. Mix one tablespoonful of cornstarch smooth in cold milk and add to the egg and sugar. Stir all into the hot milk, boil until it thickens, flavor and pour over the stiffly beaten white of one egg.

Cocoanut float: Add one cupful ot cocoanut.

Chocolate pudding: By adding one-tialf cupful melted chocolate and doubling the quantity of cornstarch you may have individual chocolate cones (mold in cups which have been rinsed in cold water). Serve with whipped cream.

Orange custard: Use plain custard cold; pour over three cuptuls sliced oranges.

Macaroni scallop: Use macaroni

crumbs instead of orange.
loe cream: Freeze the plain custard, with or without fruit, and you have a rich, smooth ice cream.

ALL MADE FROM ONE RECIPE

Seven Different Sauces May Be Constructed From Simple, Easilymixed Ingredients.

The following is a very economical way of making seven different sauces from one recipe:

The original recipe—One spoonful butter, one cupful gugar, one egg Cream butter and sugar well, add well-beaten yolk of egg, lastly the white beaten stiff, which makes a foamy sauce.

Add vanilla for strawberry shortcakes, almond for peach and juice of s lemon for cottage pudding

Cream butter and sugar beating in whole egg. Beat a few seconds and you have a hard sauce. Flavor with nutmeg. A few spoonfuls of cream in the

formy sauce makes another kind. Then add a little hot water and boil, stirring briskly, and you have a curdled hot sauce.

Add half a cupful of blueberry juice to the above and you have the sev-

Jellied Beetroots. A change in the way of serving beets is to jelly them for an occa-sional tea dish, with cold meat. They are simply prepared in this way:-Boll a bunch of beets until tender, skin, cut in quarters, if small, or in eight pieces if large. Slice thin, sprinkle with salt, and let stand ten minutes. Take one cupful of vinegar, one-half cupful of sugar or less, heat and stir in two rounding teaspoonfuls of cornstarch, dissolved in a little wa-Boil two or three minutes, pour over the beets and lightly lift them with a fork to allow the jeily to surround them.

Chicken Tamale,

One cup cooked chicken, chopped fine, one cup commeal, one tablespoonful butter, one tablespoonful onion juice, three tablespoonfuls salad oil, one cup tomatoes, one cup pitted olives, four tablespoonfuls catsup, salt, cayenne pepper. Scald the commeal with a cup of boiling water. Add the butter, onion juice, tomatoes, oil, chicken, olives, catsup, cayenne and sait. Put in a buttered dish and

How to Cut Butter Evenly.

In the Woman's Home Companion appears a department called "The Ex change," in which readers contribute bousehold suggestions. An Cregon contributor tells, as follows, how to out butter evenly:

"In cutting dice of butter for indiridual use, take a wet thread, which euts them easily and does not leave agged edges. Cold mush which you wish to fry may be cut in the same WBY."

Marble Cookles.

One cupful of sugar, one cupful o outter and lard mixed, one cupful of sour milk, with one teaspoonful of sods dissolved in it, one cupful of flour, two cupfuls of rolled oats, one cupful of thopped raisins, a teaspoonful of salt and the same of cinnamon. Mix well and drop on buttered tin, about three inches apart. Drop one teaspoonfu the cough for a cake. If they spread too much stir in a little more flour.

Compote of Apples.

Make sugar strup. If the apples lack flavor, add lemon peel and cinna mon. Pare, core and cook the applea in this sirup until tender. Drain, fill the centers with red jelly, sprinkle with sugar and glase in the oven Serve with whipped cream or with the sugar sirup thickened. Peaches or pears may be used instead of apples.

To Preserve Cateup

Home-made catsup, lacking the chemicals of the manufactured product goes bad quickly when once opened. To overcome this pour into the bottle a small quantity of olive oil. The olive oil acts as a preservative and does not require renewing, for when the contents are poured out the oil slips sside.

Corn Oysters.
One egg beaten very light, one cup
corn, one-half cup flour, one even teaspoon baking prwder, butter size of
walnut, a little salt. Mix and drop by
teaspoonfuls and try in deep fal.

FIGHT PLAGUE IN THE ORIENT

American Anti-Tuberculosis Society Has Been Active in Movement for Health Preservation.

Tuberculosis is one of the most se rious public health problems of the Active organizations to fight Orient. this disease have been formed in Japan, the Philippines, India and Australia. A movement is on foot for a national organization in China and in a number of cities local work has been started. While no accurate figures are available, those who are in position to know claim that consumption takes annually from 500,000 to 1,000,-000 lives in China alone. In India the death rate is fully as high, and on account of caste distinctions and native superstitions, the problem of prevention and treatment is peculiarly difficult. The Japanese government has taken a hand officially in the control of tuberculosis, and is co-operating with two well-organized private associations. The death rate, while very high, is lower than in China and India, Under the direction of the United States public health service a move ment for the prevention of tuberculo sis in the Philippines has also been

organized. The National Association for the Study and Prevention of Tuberculosis, with headquarters in New York. although organized especially for work in this country, has been largely instrumental in the establishment of anti-tuberculosis movements in most of the oriental countries, as well as in Africa and South America.
